PROFESSIONAL SUMMARY

PMP-certified Project Engineer with over 3 years of multidisciplinary engineering experience, specializing in construction project delivery, power distribution systems, and stakeholder coordination. Proven ability to lead cross-functional teams, manage project lifecycles, monitor budgets and schedules, and ensure full compliance with HSE and regulatory standards. Proficient in Primavera P6, MS Project, and AutoCAD, with a strong record in vendor management and quality-focused execution.

CORE COMPETENCIES

- Project Planning & Lifecycle Execution
- Construction Oversight & Technical Coordination
- HSE Compliance & Regulatory Standards
- Primavera P6, MS Project & AutoCAD
- Budgeting, Resource & Risk Management
- Stakeholder Communication & Reporting
- Vendor/Supplier Management
- Team Leadership & Field Supervision

PROFESSIONAL EXPERIENCE

Project Engineer

Port Harcourt Electricity Distribution Company (PHED) – Rivers State

Jan 2023 – Present

- Managed the end-to-end delivery of over 50 power distribution and infrastructure projects, including transformer installations, feeder re-routing, and network expansion.
- Created project plans, Gantt charts, and detailed execution schedules using MS Project and Primavera P6.

- Supervised engineers, subcontractors, and technicians on-site, ensuring adherence to design specs, safety protocols, and client expectations.
 - Prepared BOQs, SLDs, technical drawings, and cost estimations to support procurement and approvals.
 - Reviewed technical proposals and coordinated stakeholder meetings for alignment with project goals.
 - Enforced strict HSE compliance on all project sites, achieving a 100% safety record.
 - Led vendor assessments and contract negotiations, improving procurement timelines and reducing material costs.
 - Monitored budget performance, identified risks, and implemented mitigation strategies to avoid cost overruns.
 - Facilitated communication between PHED management, regulatory bodies, local communities, and contractors.
 - Produced weekly reports, site diaries, and milestone documentation for internal and external stakeholders.
 - Managed emergency outage responses, coordinating rapid repairs and ensuring service reliability.
-

Associate Laboratory Technical Analyst

Animal Care Services Konsult – Ogun State

Apr 2022 – Jul 2022

- Conducted over 30 routine and specialized laboratory tests for quality assurance, including pH, moisture, and active ingredient analysis.
 - Supported the calibration and maintenance of laboratory equipment, ensuring consistent performance and regulatory readiness.
 - Participated in developing test protocols and validating procedures to improve lab efficiency and data accuracy.
 - Documented test results and prepared reports for internal audits and production teams.
 - Ensured accurate record-keeping and assisted in internal quality audits.
 - Collaborated with production and procurement teams to align raw material testing with operational needs.
 - Monitored reagent and material inventory, reducing stockouts and maintaining uninterrupted workflow.
-

Associate Production Manager

Animal Care Services Konsult – Ogun State

Dec 2021 – Mar 2022

- Oversaw production of veterinary feed and pharmaceutical products, ensuring alignment with daily targets and quality standards.
 - Coordinated production planning, shift scheduling, and machine utilization to reduce downtime and bottlenecks.
 - Implemented lean production practices and preventive maintenance schedules, improving overall efficiency by 18%.
 - Conducted risk assessments, enforced PPE usage, and trained staff on safety protocols, leading to a zeroincident record.
 - Monitored stock levels, prepared requisitions, and coordinated with warehouse staff for seamless raw material flow.
 - Supported product trials and collaborated with R&D for process improvements.
 - Analyzed production data to identify inefficiencies and suggested corrective actions to management.
-

Clerical Assistant to the Executive Director

Animal Care Services Konsult – Ogun State

Aug 2021 – Dec 2021

- Managed executive calendar, scheduled meetings, and handled confidential communications.
 - Maintained and organized over 45 client and partner files, ensuring information was readily available and up to date.
 - Drafted and edited reports, memos, and correspondences for executive-level decisions.
 - Supported HR initiatives including interview scheduling, onboarding coordination, and file management.
 - Liaised with internal departments and external stakeholders to support project execution.
 - Assisted with travel logistics and expense reporting to streamline executive operations.
 - Cut office supply costs by 15% through more efficient procurement and inventory tracking.
-

Associate Engineer (Intern)

Calaya Engineering Services – Rivers State

May 2019 – Oct 2019

- Supported corrosion control projects in oil & gas pipelines, assisting with cathodic protection testing and ultrasonic inspections.
 - Recorded measurements, performed corrosion rate analysis, and helped map internal damage across pipeline sections.
 - Participated in field site audits, safety briefings, and maintenance assessments.
 - Contributed to the preparation of technical reports and data summaries for project documentation.
 - Assisted senior engineers in site logistics and material tracking to ensure field readiness.
-

Intern – Paint Production

Demcok Paints – Rivers State *Jan*

2019 – Apr 2019

- Produced over 1,500 liters of paint per batch, following strict quality and safety protocols.
 - Created custom color blends for client orders, improving customer satisfaction and sales.
 - Maintained production logs, chemical usage records, and material inventory reports.
 - Reduced chemical waste by 12% through improved formulation accuracy and efficient batch mixing.
 - Assisted in daily machine checks and routine maintenance tasks to minimize downtime.
 - Supported the sales team by preparing accurate quotations and cost estimates for clients.
-

Sales Manager

Lecan Electrical Store – Rivers State

Aug 2013 – Sep 2015

- Developed and implemented sales strategies to grow the client base and increase revenue.
- Achieved consistent quarterly sales growth of 15% through proactive outreach and after-sales support.
- Trained junior sales staff and created templates for client follow-up, improving service delivery.
- Analyzed customer feedback and market trends to tailor product offerings.
- Managed supplier relationships, negotiated pricing, and streamlined procurement processes.

- Represented the company at trade fairs, boosting brand visibility and attracting bulk buyers.

EDUCATION

Chukwuemeka Odumegwu Ojukwu University

B.Eng. in Chemical Engineering – *Second Class Upper*, 2021

CERTIFICATIONS

- Project Management Professional (PMP) – Alpha Consulting Services
- Health, Safety & Environment (Levels 1, 2 & EIA Level 3) – Alpha Consulting Services
- Software Development Certification (*Expected October 2025*) – Power Learn Project
- Advanced Diploma in Python Programming (*In Progress*) – Alison
